**Integra Micro Current System** - refines lines and wrinkles. Scientifically proven to improve the elasticity of the skin. Operating on just 1000th of a milliamp the system runs in harmony with the body's own natural electrical charge, giving very little sensation of passing current during treatment. By working on the underlying muscles of the face the system gently lifts and tones, whilst also stimulating the lymphatic system, infusing moisture to soften the appearance of lines and wrinkles.
